

2017-2018 CMS Flu Coding Resource Guide

The Centers for Medicare and Medicaid Services (CMS) has issued an [updated flu coding resource guide for the 2017-2018 flu season](#).

CMS recommends that physicians:

- Take advantage of each office visit as an opportunity to encourage your patients to protect themselves from the flu and serious complications by getting a flu shot.
- Continue to provide the flu shot if you have vaccine available, even after the new year.
- Remember to immunize yourself and your staff.
