

PQRS Corner: Review Your AQRUR

Your Annual Quality and Resource Use Report (AQRUR) has lots of solid cost and quality data that you can use to improve patient care (and prepare your practice for MACRA in 2017).

The AQRUR contains information about your assigned quality tier (high, medium, low), and whether you will be subject to the Value-Based Modifier (VM) payment adjustment in 2017. It also has details about your practice's participation in PQRS.

If you think your AQRUR information is incorrect, you have until **November 30** to request an informal review. [Learn more about obtaining your reports and requesting an Informal Review.](#)

Reviewing these reports will help you prepare for MACRA implementation on January 1, 2017.

Speaking of MACRA...

Register now for free live MACRA webinars from CSMS, offered at two convenient times: [November 16 at 4 pm](#), and [November 22 at noon](#). Join us and get real-time answers for your MACRA questions.

CSMS AQRUR Webinar Now Online

Thanks to everyone who attended our live AQRUR webinars on 10/31 and 11/1. The presentation is [now available on the CSMS website](#) for on-demand learning.
