

## PQRS Corner

### IACS/EIDM Transition

This month, CMS transitioned from the IACS (Individuals Authorized Access to CMS Computer Services) to EIDM. Effective July 13, an IACS account cannot be used to access QRURs. Unlike IACS, the EIDM has a single user ID that you can use to access multiple CMS applications. Your IACS data has migrated to EIDM, but you will need to set up an EIDM account to access it.

- **Existing PQRS IACS users**, their data, and roles will be moved to EIDM and will be accessible from the 'PQRS Portal' portion of the CMS Enterprise Portal at <http://portal.cms.gov>.
- **New PQRS users** will [need to register](#) for an EIDM account ([Quick Reference Guide to EIDM Registration](#))

CMS has also issued a downloadable [EIDM User Guide](#).

### PQRS Group Practices using EHR-based Reporting 7/23/15 @ 11 am

Is your group planning to use EHR for PQRS data submission? This CMS webinar will provide background information on PQRS GPRO, and overview of electronic reporting, information for PQRS group practices, and a Q&A segment. [Click here to register](#).

### PQRS: An Overview

Did you miss the CSMS webinars on PQRS? The presentations are [now available on the CSMS website for download](#) (PDF and .wmv files).
