

## PQRS Corner

### Informal Review Deadline 11/30

Your 2015 Annual Quality and Resource Use Report (AQRUR) provides information about your Medicare quality and cost data -- and it can also alert you to ***potential negative payment adjustments in 2017***.

***Up to 4% of your Medicare reimbursement could be affected in 2017.***

If you think your report information is incorrect, you have until **November 30** to take action and request

an informal review. [Learn more about obtaining your PQRS Feedback Report/AQRUR and requesting an Informal Review.](#)

***Reviewing your AQRUR also helps you prepare for MACRA implementation on January 1, 2017.***
